Professional Summary

B.Tech Computer Science graduate (2025) with internship experience in Manual Testing and project experience in Selenium WebDriver, SQL, and API Testing. Familiar with test case design, test execution, and defect reporting. Looking for an entry-level Software Testing role.

Technical Skills

Manual Testing: STLC, SDLC, Requirement Analysis, Test Case Design, Test Execution, Defect Life Cycle, Functional Testing, Regression Testing, Smoke Testing
Automation Testing: Selenium WebDriver, Core Java, TestNG, Page Object Model (POM), Karate Framework
API & Database Testing: Postman, SQL
Tools & Methodologies: JIRA, Jenkins, Git, GitHub, Agile Scrum

Training

Software Testing Trainee *May 2025 – Oct 2025*
QSpiders, Punjagutta, Hyderabad

- Trained in Manual Testing concepts including SDLC, STLC, Test Case Design, Test Execution, and Defect Life Cycle.
- Created and executed test cases, identified defects, and reported bugs during project-based testing activities.
- Performed SQL queries for database validation.
- Conducted API testing using Postman and validated request and response data.
- Gained hands-on experience in Selenium WebDriver with Core Java and TestNG.

Internship

Manual Software Testing Intern *Jun 2024 – Jul 2024*
Ramraj Technology Solutions Pvt. Ltd., Bhopal

- Learned software testing fundamentals including SDLC, STLC, test case design, and defect reporting.
- Participated in application validation and software testing activities during internship training.
- Gained practical exposure to software quality assurance processes and testing documentation.

Projects

Selenium Automation Framework [GitHub]

- Built a Selenium automation framework using Core Java, Selenium WebDriver, TestNG, and Page Object Model (POM).
- Organized reusable page classes and utility methods to simplify test execution.

SwagLabs Automation Testing [GitHub]

- Automated key user journeys including login, product selection, cart, checkout, and order confirmation.
- Used TestNG assertions to verify expected results during test execution.

E-Commerce API Testing [GitHub]

- Tested REST APIs using Postman for user, product, cart, and order modules.
- Verified request methods, status codes, response body, and JSON data for different API requests.

E-Commerce API Automation using Karate Framework [GitHub]

- Automated Login, Product, Cart, and Order APIs using Karate Framework and REST API requests.
- Validated status codes, response data, JSON fields, and response time using Karate assertions.
- Managed reusable feature files, common configurations, and test execution through Maven.

E-Commerce Website Manual Testing [GitHub]

- Prepared test scenarios and test cases for login, search, cart, checkout, wishlist, and order management.
- Performed functional, regression, and negative testing across major user workflows.
- Logged defects with clear bug reports and verified fixes after retesting.

Banking Portal Manual Testing (ParaBank) [GitHub]

- Covered account creation, fund transfer, bill payment, and account overview through manual test cases.
- Checked application behavior under valid and invalid inputs and documented the issues found.

Education

Bachelor of Technology in Computer Science & Engineering *2021 – 2025*
Technocrats Institute of Technology & Science, Bhopal *CGPA: 7.70*

Higher Secondary (12th) *2019 – 2020*
Z.A. Islamia College, Siwan, Bihar *71.20%*

Secondary (10th) *2017 – 2018*
Madhusudan High School, Siwan, Bihar *60.00%*
